Estd.:1971

ললিত চন্দ্ৰ ভৰালী মহাবিদ্যালয়

স্থাপিত: ১৯৭১

History of the College

LCB College was founded in 1971 as a night college by a group of teachers and operated from the premises of Maligaon Railway Higher Secondary School. At the initial stage it catered mostly to undergraduate working men and women. It was at the initiative of the neighborhood community and the generous donation made by the family of Lalit Chandra Bharali that facilitated the purchase of its own land in 1972 and it was only from the next year that the college functioned for the first time from its own premises and since then it is the Governing Body that constitutes the primary management system of the college. The establishment of the college was driven by a holistic approach towards higher education to the marginal student community who could not access the central/city colleges for various reasons. It was also an educational outreach for the students who lived beyond the city limits and the entire Northeast. However since the last two decades the college has notched up its credibility as it attracts some of the best students from the entire northeast region for its non-traditional subjects at the UG level.

Another USP of the college is the natural ambience that prevails in the campus. It is nestled in the foothills of the beautiful Nilachal (abode of the Goddess Kamakhya) and Adingiri Hills providing an idyllic environment for teaching and learning.

From the Principal's Desk

Lalit Chandra Bharali (LCB) College, Maligaon is one of the premier institutions of Higher Education of Assam. Popularly known as LCB College, this institution of higher learning was established in 9th of August 1971, with the generous support of the people of greater Maligaon area and mainly the financial help of a great philanthropist and a visionary, Late Lalit Chandra Bharali. At this moment, I offer my deep reverence and tribute to the great visionary and all others associated directly or indirectly with the establishment of this institution. Friends, once again we are at the threshold of another new academic year 2021-22. As we gear up for the coming session, I would like to take this opportunity to welcome all our new-comers to this temple of learning. I would also like to convey my best wishes to all others who are pursuing their studies in this esteemed institution. The vantage location of the College, i.e., at the Eastern part of the N.F. Railway H.Q. and at the foothills of Nilachal Pahar, the abode of Mother Goddess Kamakhya brings in an ambience of peace, serenity and eco-friendly atmosphere which is conducive to higher learning. Since its inception, the college has strived to set new benchmarks of excellence in academia, literature, multi-disciplinary vocational courses, sports, cultural activities etc. Each subsequent year, our students and faculty have scaled new heights, setting higher goals for the students to come. Today, LCB College has made commendable progress and has opened up different disciplines including self-financing courses such as BCA, B.Sc.(IT) and PGDCA. Our vision is to make the institution a centre of excellence which can serve the society and the nation in a better way in keeping up with the changing needs of time. In trying to upgrade ourselves, we are facilitating the stakeholders by providing upgraded facilities like modernized library with a digital section, state of the art Seminar hall cum smart class room, renovated and newly constructed wash rooms. The construction of a multi-storied Administrative and Academic Building is going on, which will accommodate gymnasium hall, parking facility, Principal's Office, State of the Art Class rooms, etc. Keeping in mind the need to provide the best of everything to our students, the re-construction of College Canteen is underway. The institution, therefore, sees to it that the learners, teachers and guardians are constantly engaged in serving the perennial motto- "Lead me from darkness to Light."

My dear students,

College life is about a newly gained freedom from the rigidity of school days. It is a gateway to your bright future- Use it judiciously. Realize your strengths; try to remove your weaknesses; only with hard work and perseverance can you build an edifice for success in the days to come. Use the College Library regularly as it provides a conducive environment to the students and the faculty. Judicious use of time, a positive attitude and strong determination are indispensable for achieving success in life.

With these words, I once again extend a warm welcome to the College, and wish you a bright and prosperous future.

Dr. Adison Ali

Vision

To translate into a centre of excellence by foregrounding knowledge as empowerment and an instrument for inculcating social responsibility.

Objectives

In order to materialize this mission, the objectives are:

- To provide the infrastructure to facilitate the faculty and students to appropriate the latest technology, tools and methods.
- To provide a liberal and free environment to translate the vision and the mission of the institute into a reality.
- To nurture critical and creative temperament.
- To sensitize and engage students on issues of gender equality, human rights and ecology in order to make them socially responsible citizens.

Mission

The Mission of the college is

- To provide a centre of alternative career oriented courses in Science, Technology and Management.
- To make quality education accessible to all sections of society especially to students of the peripheral areas
- To cultivate excellence by identifying and moulding some of the best minds.
- To equip students with skills and life values to face the challenges of life and thereby to contribute towards nation-building.
- To instill a sense of environmental responsibility among the learners.
