

Criterion 7.2.1

Best Practice-1

1. **Title of the Practice:** Energy and Water conservation emphasis
2. **Objective:**
 - To save energy consumption and water usage.
 - To reduce electricity bill
3. **Context:** High monthly electricity bill and water shortage in the area
4. **The Practice:** Solar energy is being increasingly used with installation of solar panel on roof top and rain water harvesting is also done. Rain water harvested is used in toilets and washing.
5. **Evidence of Success:** Saving of monetary resources in electricity and purchase of water
6. **Problems encountered and resources required:** To fulfill maximum load requirement of the College, more solar panels needs to be incorporated.

Best Practice-2

1. **Title of the Practice:** Provisioning of platforms beyond academics.
2. **Objective:**
 - To ensure holistic development of students
 - To develop soft skills.
3. **Context:** To encourage students so as to bring out their hidden talents.
4. **The Practice:** It is ensured that the students compulsorily enroll in at least one of the clubs as per their choices and engage in the activities.
5. **Evidence of Success:** Increased participation of students is observed in in-campus and out-campus activities and student's leadership is increasing in organizing the same.
6. **Problems Encountered and Resources Require:** Physical space and financial resources are required to facilitate the students further.
