

Department of Computer Science

Programme: Four Year Undergraduate Programme Computer Science Major

Programme Outcomes (POs)

- ✓ PO-1: To develop problem solving abilities using a computer.
- ✓ PO-2: To prepare necessary knowledge base for Research and development in computer science.
- ✓ PO-3: To build the necessary skill set and analytical abilities for developing computer based solutions for real life problems.
- ✓ PO-4: To train students in professional skills related to software industry.
- ✓ PO-5: To imbibe quality software development in computer science.

Program Specific Outcomes (PSO)

- ✓ PSO1: To help students build up a successful career in computer science.
- ✓ PSO2: Apply computer science theory and software development fundamentals to produce computing based solutions.
- ✓ PSO3: Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- ✓ PSO4: Communicate properly in a variety of professional contexts.
- ✓ PSO5: To develop an understanding of professional, ethical, legal, security and social issues and responsibilities for the computing profession.
